

WHAT SHEEP TAGS DO I NEED ?

FOR ALL SHEEP BORN AFTER 1ST JAN 2010

1. For any lambs you intend to keep for breeding, or which you might intend to be sold for breeding, such as good quality Ewe Lambs – FULL EID ie. Double Tags, one of which must be Electronic
2. For all other sheep – a single Electronic Slaughter Tag. This will keep all your marketing options open by allowing easy reading of tags at all times, and upgrading to full EID, if required, in the future.
